

## SD1000 Std

- Max garage door size: 15m<sup>2</sup>
- Max door weight up to 150kg
- Max peak pulling force: 1000N
- Rolling code technology
- 433.92 MHz transmitter frequency
- Soft start / soft close
- Adjustable operating speed
- Belt drive
- Easy set up & remote coding
- Maintenance alarm
- Reversing system complies with AS/NZS 60335-2-95

## SD1000 Pro

- Max garage door size: 15m<sup>2</sup>
- Max door weight up to 150kg
- Max peak pulling force: 1000N
- Rolling code technology
- 433.92 MHz transmitter frequency
- Soft start / soft close
- Adjustable operating speed
- Belt drive
- Easy set up & remote coding
- Maintenance alarm
- Reversing system complies with AS/NZS 60335-2-95
- Built in F-linX Wi-Fi
- Wireless PE Beam and Wireless E-Lock compatibility

## SD1500 Pro

- Max garage door size: 23m<sup>2</sup>
- Max door weight up to 250kg
- Max peak pulling force: 1500N
- Rolling code technology
- 433.92 MHz transmitter frequency
- Soft start / soft close
- Adjustable operating speed
- Belt Drive up to 210kg
- Chain Drive from 210-250kg
- Easy set up & remote coding
- Maintenance alarm
- Reversing system complies with AS/NZS 60335-2-95
- Built in F-linX Wi-Fi
- Wireless PE Beam and Wireless E-Lock compatibility

Side mounted installation

## RD1000 Pro

- Max garage door size: 20m<sup>2</sup>
- Max peak pulling force: 1000N
- Max door curtain weight: 130kg
- Rolling code technology
- 433.92 MHz transmitter frequency
- Built in F-linX Wi-Fi
- Electrical Input: 240V, 50Hz
- Courtesy LED light included
- Manual disengagement system
- Electronic limit system
- Reversing system complies with AS/NZS 60335-2-95
- Wireless PE Beam compatibility

## RD1500 Pro

- Max garage door size: 28m<sup>2</sup>
- Max peak pulling force: 1500N
- Max door curtain weight: 270kg
- Rolling code technology
- 433.92 MHz transmitter frequency
- Built in F-linX Wi-Fi
- Electrical Input: 240V, 50Hz
- Courtesy LED light included
- Manual disengagement system
- Electronic limit system
- Reversing system complies with AS/NZS 60335-2-95
- Wireless PE Beam compatibility

# HOME ENHANCERS

## F-linX App

Enjoy complete control of your garage door from your smartphone — open, close and monitor it anytime, anywhere. Stay informed with instant alerts, activity history and easy access to connected accessories all in one app.

## Wireless E-Lock

The E-Lock enables remote control and status monitoring. When the doors is completely closed, the E-Lock automatically locks.

## Wireless PE Beams

Allows the garage door to automatically reverse when its sensory light beam is broken by an obstruction, helping to protect your family from injury and your car from damage caused by contact.

## Insulation

A Mammoth<sup>®</sup> Insulated Garage Door not only maintains warmth during winter and keeps things cool in summer, but also reduces your energy expenses. For optimal performance we recommend adding brush seals. Available on all Sectional Garage Doors.

## Smart Camera

Add video services to your garage with a Smart Camera. With 3K HD colour resolution, dual-band Wi-Fi, cloud storage, motion detection, night vision and two way audio with built in speaker and microphone, you can monitor your garage from anywhere in the world for free. Available as wired only.

## Battery Backup

A Battery Backup provides an energy supply in the event of a power outage, allowing you to continue operating your garage door.

## Wireless Keypad

The Wireless Keypad can be programmed with multiple, unique user codes. It is perfect for the family, tradespeople, or going for a walk. This means you can leave your keys at home with peace of mind.
